Investor:
SEW-EURODRIVE CZ s.r.o.

Contract value:
178 mil. CZK

Volume - area:
built-up area **4.000 m²**

GENERAL DELIVERY

The assembly hall has been extended in three directions. In the extension part is located new painting line technology and other related assembly and service operations. The new administrative building with offices and social facilities for employees is connected to the existing building on the 2nd floor by a covered footbridge. The load-bearing structure of the building consists of a prefabricated skeleton supplemented by a steel structure. As part of the expansion of the existing buildings, there were also modifications and an increase in the performance of the existing systems, heating, cooling, ventilation and electrical installations.
