 INNENRAUMFILTER (CZ) S.R.O.,  
 UHERSKÝ BROD**

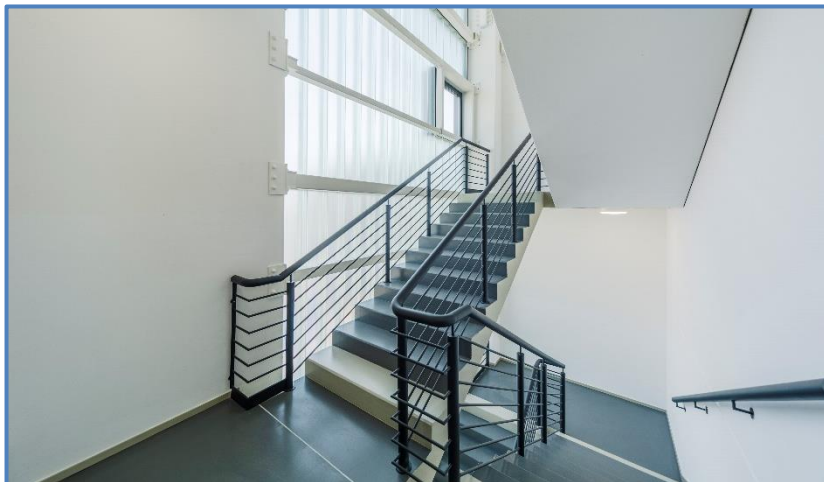

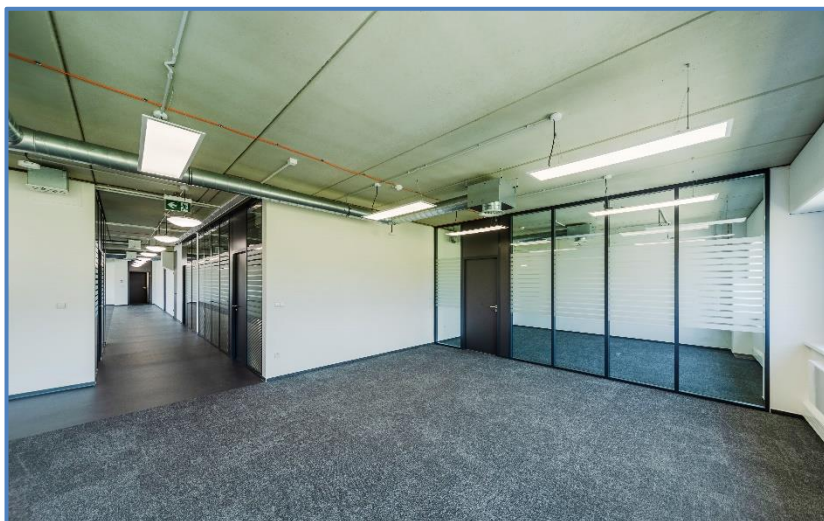

Construction:  
**05/2023– 12/2024**

Investor:  
**MANN+HUMMEL Inneraumfilter (CZ)  
 s.r.o.**

Contract value:  
**192,5 mil. CZK**

Volume - area:  
 Usable area **9.434 m<sup>2</sup>**

The implementation of the extension of the production plant includes the addition of a warehouse and a production hall, including a three-story extension with a technical floor, an administrative floor and a floor with new changing rooms. Modifications of the existing hall were also included. The key requirement in the solution concept was the implementation of fossil-free heat sources together with high energy efficiency and the requirement for maximum heat recovery and free cooling within the operation of the HVAC equipment. The new building is equipped with new efficient systems for ventilation, heating and possibly cooling the production premises. Heat is supplied exclusively by heat pumps.
